## Community Projects (1)

At the start of the year, the eighth grade student embarked on a wonderful journey of learning and exploring through completing the mandatory Community Projects course. A Community Project is an in-depth inquiry that focuses on community and service, and aims to help students raise awareness, participate actively, research, inform others, create/innovate, change behavior, or advocate. It encourages students to explore their right and responsibility to participate in service as action in the community. This newsletter will present some of our students' projects over the next coming weeks .

Ms. Ashwaq Almalki supervises 4 projects and they are:
