Students in the second grade exploring Islamic Sciences:

Students in the second grade of the Elementary Level work on exploring the subject of Islamic sciences under the supervision of Teacher: Ibtisam Al-Khatib. The topic of the research revolves around the five pillars of Islam that have been translated in several stations that the teacher equipped with her students, ranging from pictures, texts and sensory materials that explain each of the five pillars to encourage students to build knowledge and provide opportunities that lead to being able to link previous information with the current.

One hundred days of knowledge and learning:

During the last one hundred days, our students spent special moments and lived many experiences in which they learned a lot, they got to know new friends who developed their personalities and skills and became (knowledgeable, inquirers, thinkers, open minded, communicators, caring ..) proud of joining Dhahran Ahliyyah schools .

Our students in kindergarten carried out a variety of art activities , highlighting what they learned during the last 100 days.

“where are we, in place and time” Unit was enhanced at “Ithraa”

As our schools’ Mission stated that our students are life-long learners, students in the third grade visited King Abdulaziz Center for World Culture “Ithraa” on Monday, February 3rd, 2020 in a journey to enhance the learning unit of “where are we, in place and time”. Students attended a presentation during the trip as well as variable activities from which they have gained some valuable information about the impact of history

“Mommy and I” Activity, for KG 1 & 2

On Thursday, February 13th , 2020, “Mommy and I” Activity started at 9:30 until 11 :30 in the Girls Gymnasium. The activity was initiated with reciting the holy Quran “Surat Al-Fatihah” in which all mothers and kids participated.. that was followed by many exercises and physical activities and was concluded with the Schools’ Song, mothers enthusiastically toured the gallery along with their children. This activity aimed to inform all the mothers about the skills the school implement as well as to make them included in order to reinforce these skills at home, considering they serve (Developing small and large muscles, following instructions, listening comprehension, language, investigative skills, and using critical thinking skills) Mothers have expressed their extreme happiness for this activity and for gaining new ideas on how to spend more joyful times with their children. We appreciate all the efforts to prepare this activity that has a role to make our children achieve the expected goals at this age.

One hundred days of learning and giving:

Out of the social responsibility and the desire to increase awareness among our students of its importance, Elementary school students (Boys & Girls) embodied the most wonderful pictures of charity by preparing one hundred boxes of supplies for 100 families in need, in their 100th day in school. Each student participated in preparing these boxes themselves by providing various materials and arranging them inside the boxes. We thank everyone who contributed with us and made this activity a success.
