Saudi National Day

Country is a word that indicates love and dedication- dedicating everything we own for the good of our country.

Country is the past history, the flourishing present and the promising future.

Our Country is the great civilization expanded from Makkah in the West to Al Ahsa in the East, and from Najran in the south to Al Jouf in the North.

Our Country raised us when we were young and gave us love and support.

Our Country wants us to protect it and build its future by becoming good citizens.

Citizenship is when we learn and work sincerely and honestly for the development of our Kingdom.

Citizenship is when we offer help to the poor people in our community as much as possible.

Citizenship is when we respect and adhere to the rules and regulations instead of violating them.

Citizenship is when we keep thinking creatively about how to develop our country.
