Umrah Trip

In order to relate the theoretical part of the curriculum to the practical life experience, the school organized two trips to Makkah for grade 8 students. The first trip took place in the sixth week of the semester and the second trip took place in the seventh week. A total of 45 students and 6 supervisors joined these trips.

The trips aimed at exploring the students' potential abilities in different aspects;

- a) Self-dependence
- b) Planning and organization skills
- c) Applying the theoretical information to real life
- d) Communication skills
- e) Notetaking skills
- f) Identifying strengths and weaknesses

During the trip, the students adhered to the agreed upon guidelines. They displayed awareness, discipline and positive practices to what they have learned. The school maintained communication with the students' parents via "Whatsapp" which had a reassuring impact on both students and parents.

We would like to extend a heartfelt thanks to the trip supervisors for their efforts in organizing and planning this trip. Also, we would like to thank our students who represented an honorable picture of our schools, and to their parents for their support and encouragement.
