"Our Mission"

Inspired by the principles of Islam, the mission of Dhahran Ahliyya Schools is to empower each student to be a compassionate, thinking, lifelong bi-lingual learner, who makes a positive difference locally and globally.

"Our Vision"

Our vision is to provide a world class education with an Arab and Islamic identity through a pioneering learning community that is sustainable and socially

Our school is supervised by the Ministry of Education and accredited by The Commission on Accreditation and School Improvement (NCA CASI)

4th Mid-term Exhibition for Personal Projects

10 graders participated in the Mid-term exhibition for personal projects that was held on Tuesday December 13th, 2022, from 1:20 to 2:15 PM at the multi-purpose room. The exhibition was attended by the leaders committee to have a look on the students' works. DAS students presented their projects to the schools' community to receive a valuable feedback and guidance for the rest of the projects' stages

- **42** projects presented by students - Personal projects focuses on research & inquiry
- **40** teachers participated - it helps students to develop their skills & confidence as lifelong learners

The Visit to Scitech

As per the principle of spreading the spirit of research and inquiry for our students in the 3rd grade, our schools have arranged a school trip to Scitech Exhibition where students were introduced to the scientific sections there such as discovering earth, oceans and space. Students also watched a documentary that's called "Turtles' Journey". This trip has influenced our students to develop their passion for research and inquiry then to reflect upon the findings. Thanks and appreciation are extended to the head teachers, coordinators as well as the students for their valuable participation.

Traffic Safety Initiative

On Tuesday 22/11/2022, DAS schools have organized a great celebration in which DAS students participated in the Traffic Safety Initiative while bearing the pictures and drawings that they used to activate the initiative. This happened in the presence of the person who started the initiative Mr. Abdulaziz bin Abdullah Al-Khudari and the engineer supervising the project Mr. Muhammad Al-Qurai, and the employees of the boys' department as well as DAS students who managed the activities of the ceremony efficiently.

The celebration began with a recitation of the verses of the Holy Quran, then the speech of Mr. Kamal Al-Aqeel is the director of the Elementary school followed by the speech of the sponsor of the initiative Mr. Abdulaziz Al-Khudari, after that, a film was presented that told the story of the initiative and how our students interacted with it.

The ceremony was concluded with photos taken in a positive, active and happy atmosphere with the participation of our students in the community.

This initiative aimed to "enhance the concept of traffic safety among young students through unleashing their creative and artistic skills in embodying that concept, and encourage them through installing the safety barrier of the car parking project.

Students and employees of our schools in the boys' section interacted and participated with more than 220 drawings that expressed the importance of the green Saudi.

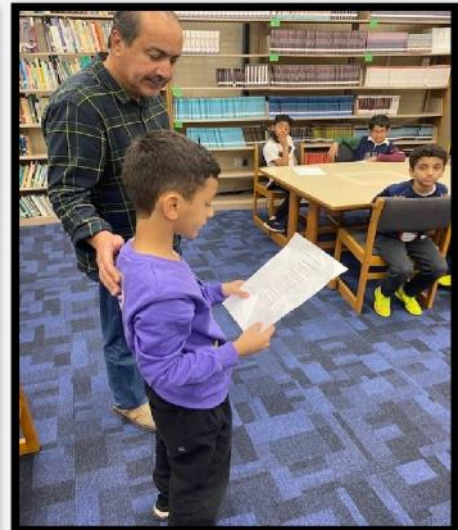

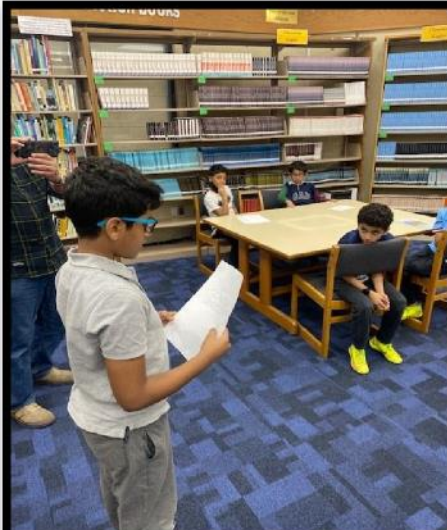

The students' participation was printed on a banner that covered the whole 235 m. safety barrier; the barrier was 1.20 m. high covering a 3000 3000 cubic meters land area.

We greatly value this social partnership that rises from the awareness of social collaboration of our school community that will eventually contribute to the developing of our city.

We extend our gratitude to everyone contributed to the success of this initiative and to our employees who encouraged our students to exert their maximum efforts to make this event a reality. Thanks also go to their parents for their continued support.

World Arabic Language Day

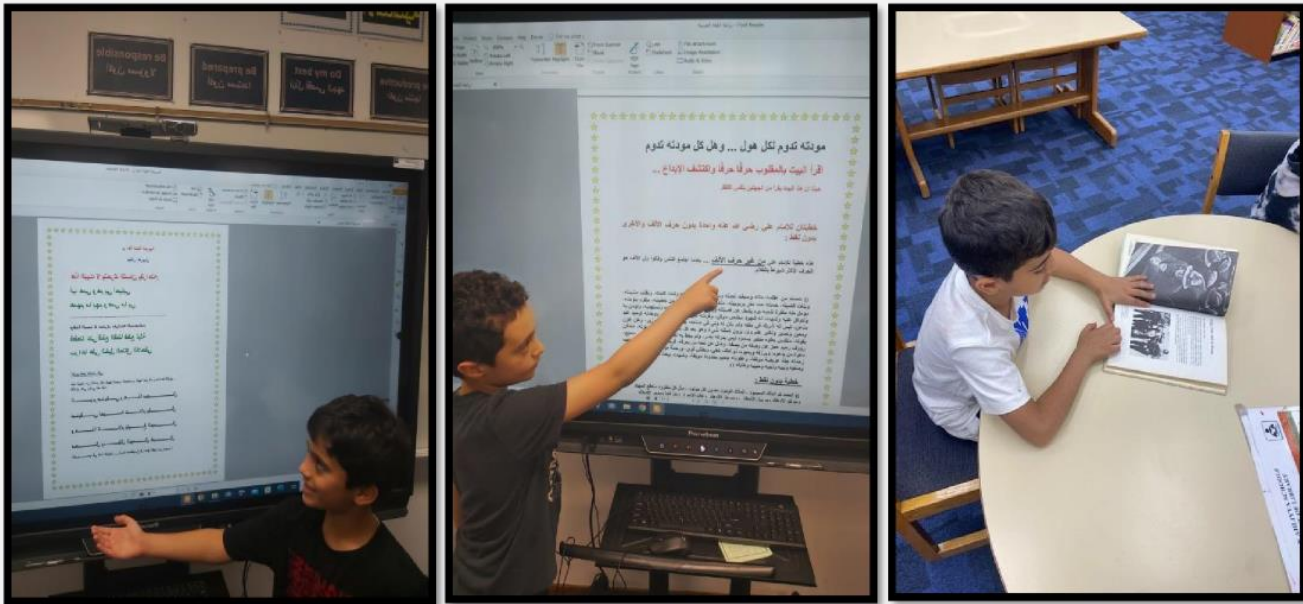

The Arabic language is a pillar of the cultural diversity of humanity. It is one of the most widely spoken languages in the world, used daily by more than 400 million people.

Within the programs and events to celebrate the World Arabic Language Day, and under the title:

(Arabic Language's contributions to the human civilization and culture)
DAS schools have organized The Arabic Language Exhibition at the multi-purpose room where various activities took place to showcase the diverse aspects of the Arabic language.

Throughout the event, students expressed their sense of belonging and passion towards our language while reading some paragraphs of their own writing, they have also participated with some traditional food dishes.

Students in the elementary level visited the school's library to look for renewed resources in many fields and learn how to find the accurate information needed.

In classes, teachers prepared for Arabic language contests such as: Spelling Bee in Arabic for 3rd graders, as well as sharing valuable facts about creativeness of the language such as: a speech that does not include the letter A (Alef), a speech that does not include letters with dots, vertical and horizontal poems with the same words, poems if read from right would sound as praise but if read from the left it would sound as denunciation.

We extend our appreciation to all those who participated actively, thanks also go to the families and the whole DAS community.
