"Our Mission"

Inspired by the principles of Islam, the mission of Dhahran Ahliyya Schools is to empower each student to be a compassionate, thinking, lifelong bi-lingual learner, who makes a positive difference locally and globally.

"Our Vision"

Our vision is to provide a world class education with an Arab and Islamic identity through a pioneering learning community that is sustainable and socially responsible.

Our school is supervised by the Ministry of Education and accredited by The Commission on Accreditation and School Improvement (NCA CASI)

Fatimah Al-Harhi and Salma Al-Sadiq Achieve National Success and Qualify to Represent the Kingdom Globally in Singapore at the Aramco STEM Racing Championship

The journey of learning does not stop at the classroom, it extends into the fields of creativity and innovation, where knowledge transforms into achievement and ambition becomes reality.

In the global finals of the Aramco Research & Development Championship, Team Sadeem secured third place at the national level, represented by student Fatimah Al-Harhi, while Team Asper achieved fourth place nationally, represented by student Salma Al-Sadiq. Thanks to their remarkable efforts, both teams have qualified to compete internationally, representing the Kingdom in the Racing STEM Competition, serving as an inspiring model of global excellence and innovation.

We are immensely proud of Fatimah and Salma and warmly congratulate their families, as well as the teachers who inspired in them a love of learning and a spirit of discovery.

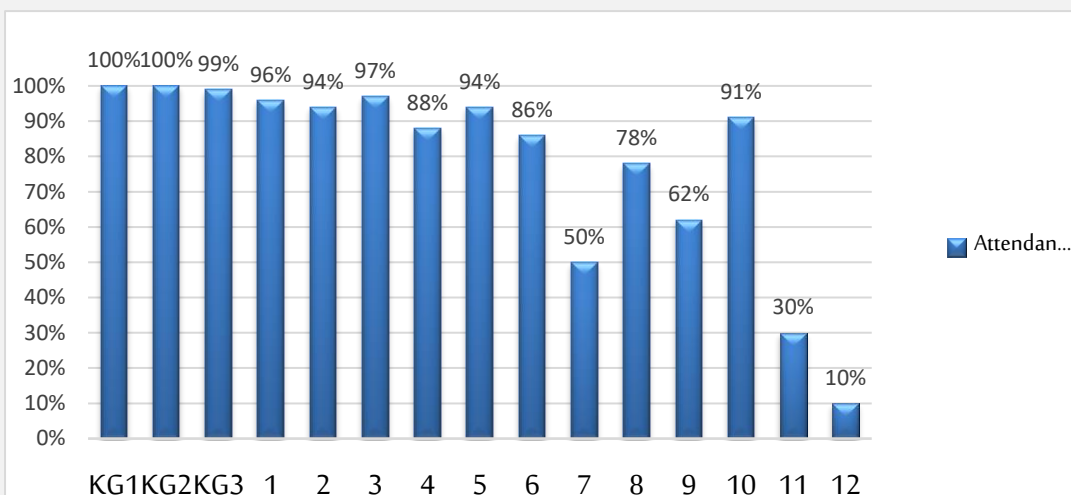

Mothers' Attendance at Individual Meetings

We extend our sincere thanks to the mothers who attended the individual meetings via Teams to discuss the academic and behavioral progress of their daughters. These meetings were organized through the efforts of the IT Department, supported by the administrative staff, and facilitated through close collaboration between our dedicated teachers and the mothers, who adhered to the scheduled times.

During the meetings, agreements were made with the teachers to enhance the students' performance and further develop their various skills. The attendance rate of mothers was as follows:

Mothers' Attendance at Individual Meetings

Bebras Informatics (Mawhiba) Competition

Bebras is an international initiative aimed at promoting informatics (computer science) and computational thinking among students from Grade 3 to Grade 12.

 Discover your skills in logical thinking and problem-solving through fun and interactive challenges!

Check the competition schedule on the official website:

<https://www.bebraksa.org/>

Practice using past challenge examples from the Bebras library:

**Your Volunteering Journey
in the “Green Cities” Initiative
Enhancing Green Coverage and**

In support of environmental awareness and social responsibility, 34 middle and high school students from Dhahran Ahliyya Schools participated in the “Green Cities” Initiative organized by the Modon Authority.

The initiative aims to increase green spaces in industrial areas and reduce carbon emissions. Students helped plant 2,000 saplings as part of a larger plan to plant 10,000 across Dammam and Al-Ahsa, enhancing air quality and promoting sustainability in the Eastern Province.

The event brought together 15 factories and key partners, including the Saudi Red Crescent, Al-Mana Hospital, and Modon Authority, demonstrating strong collaboration between educational and industrial sectors in serving the environment.

DAS students continue to lead by example, embracing volunteering and environmental stewardship for a greener future.
